SOCIAL MEDIA INSTRUCTIONS

v 1.0
November 05, 2021

About

This document outlines the steps to connect a business' social media posts to its digital signage.

Steps to link a business' social media account to its digital signage

Follow the steps below to ensure your Instagram account settings comply with Mood's digital signage requirements and retrieve and enter the code needed to populate your business' social media digital signage.

1. Make sure your Instagram account is a **business account**. This is free to set up and there are instructions [here](#).
2. Make sure your Instagram account is **connected to a Facebook page**. Instructions can be found [here](#).
3. Get your code by going [here](#) and selecting "Log in With Facebook". It should return a random code.
4. Paste the code into the "Instagram Access Code" field in the digital signage template.
5. Make sure that only the accounts listed in the "Instagram Screen Names" field are ones connected to your Facebook Page.
6. For **Twitter**, input the code [here](#).
